

Education

Shih Chien University - Information Technology

2012/06 - 2016/06

Experience

Yahoo Front-end Develop Taipei, Taiwan

2018/05 - now

- Using ReactJS SSR (Server Side Render) develop ERP website to solve some manual handling
- Using Jest and Enzyme writing unit test
- Using CodeceptJS and WebdriverIO writing functional test
- Using Sauce Labs running functional test for CI environment

ASE Group Software Engineer Kaohsiung, Taiwan

2016/11 - 2018/04

- Upgrade asp website to HTML5 standard website
- Optimize render times, add placeholder loading for AngularJS website experience
- Using Angular, Hightcharts develop new website

Project

test-app [\[1\]](#) [\[2\]](#) [\[3\]](#)

A project help front-end develop learn how to use CI/CD in GitHub.

ReactJS, Bulma, Jest & Enzyme, CodeceptJS & WebdriverIO, Sauce Labs, TravisCI

the-f2e [\[4\]](#) [\[5\]](#) [\[6\]](#)

Keep writing different topics in 9 weeks.

ReactJS, Redux, Firebase, Material UI, GreenSock

Technology

Programming

HTML5, CSS3 (Bootstrap, Bulma, Material Design) , JavaScript (ReactJS, Redux, Angular) , Lint (StandardJS) , Unit test (Jest, Enzyme) , Functional test (CodeceptJS, WebdriverIO, PhantomJS, Sahi)

Other

SPA, RWD, SSR, Webpack, NodeJS, GraphQL, Git, JS DOC, Markdown
